The pandemic has created an inflection point unlike any we have experienced in our lifetime — one that will redefine the workplace. Our Spring 2021 remote and return-to-the-workplace survey shares insights from more than 400 C-suite, senior human resources and legal executive respondents on what the future holds for their workplaces. Those responses reveal that the workplace will become as individual as the employees themselves. Yet, some trends have emerged from the data, which we share with you in [this report](#).
